

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

LYDIA E. PINKHAM

No other medicine for Woman's ills in the world has received such wide-spread and unqualified endorsement as has Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

No other medicine has such a record of success for woman's diseases, or such hosts of grateful friends as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been the standard remedy for feminine ills, inflammation, ulceration, and consequent Spinal Weakness.

It has relieved more cases of Backache and Local Weakness than any other one remedy. It dissolves and expels tumors in an early stage of development.

Irregularities and periodic pains, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility, quickly yield to it; also deranged organs, causing pain, dragging sensations and backache. Under all circumstances it acts in harmony with the female system.

It removes that wearing feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, dizziness, faintness, sleeplessness, flatulency, melancholy or the "blues." These are indications of feminine disorders, which this medicine overcomes as well as slight derangement of the Kidneys of either sex.

Women who are sick and want to get well should refuse to accept any substitute for Lydia E. Pinkham's Vegetable Compound.

SIX FREE Lectures On the Laws of Life as Related to Man From His Creation BY MRS. O. S. FOWLER

Widow of Prof. O. S. Fowler, the world-renowned phrenologist, author and lecturer, of New York City at Astoria Theatre, beginning Tuesday, February 25th, 8 p. m., to all; Wednesday, February 26, 2:30, to ladies only; Wednesday, February 26, 8 p. m., gentlemen only; Thursday, February 27, 8 p. m., to all; Friday, February 28, 8 p. m., to all; Sunday, March 1, 2:30 p. m., to all. New subject every time. It will be announced in this paper later.

Phrenological examinations and health consultations given at the Occident Hotel from 9 a. m. to 9 p. m. until March 11th. A new system of applying electricity to cure disease will be taught in classes, beginning Tuesday, March 3rd, at 2:30 p. m. and 7:30 p. m.

Mrs. Fowler comes with a national reputation as a lecturer, phrenologist and electrician. Her new mode of using electricity has no equal in the world.

More than two-thirds of your life you wear shoes. Did you ever think of that?

The Dr. A. Reed Cushion Shoe

Was built to give your feet comfort two-thirds of your life; the rest you sleep.

MAIL SUBSIDY BILL

Gallinger Reviews Conditions Under Which Ships Operate.

RAISES NO NEW ISSUE

It Leaves Existing Steamship Services Exactly as They Are Now—Only Eight of the Fifteen Ships That Ply the Pacific Are Left.

WASHINGTON, Feb. 24.—Speaking in favor of the passage of the ocean mail subsidy bill in the Senate today, Senator Gallinger reviewed conditions under which the merchant marine of this country is operating, and cited many advantages that he believes will accrue to the commercial interests of the United States if better mail service to South America and other points is established.

"The bill raises no new issue, introduces no new principle," said Mr. Gallinger. "It leaves existing and prospective steamship services exactly as they are now, and without changing one iota the tried and approved methods of the present law, increases the compensation on routes which 16 years of experience have conclusively proved to be inadequate—the long, costly and important routes to South America and the Orient, the routes where our lack of steamship service is severest and our need of such service most imperative."

Only eight of fifteen ships that were plying across the Pacific Ocean last March are left, he said.

"Since the shipping bill of the last Congress was defeated almost one-half of our feeble American-Pacific naval reserve has disappeared," he added, "and when Admiral Evans steers up through the Golden Gate from the Straits of Magellan, we shall have the grotesque disproportion in the Pacific of two battleships to every commercial vessel engaged in foreign trade—a sight which has never yet been seen beneath the sun."

"And unless the new shipping bill is speedily passed we shall see an even more grotesque disproportion than that—16 battleships and not one commercial steamer in the Pacific away from the ports of the United States. For the remnant of merchant marine in that mighty ocean is now facing the absolute extinction which long since overtook our commercial fleet on the routes to South America."

Only \$4,000,000 a Year. The passage of this bill, he predicted, will revive the waning American marine and all that the bill seeks can be accomplished for \$4,000,000 a year. It would strengthen the Pacific lines and create new lines to the Southern Hemisphere. It would, he said, promptly establish a line from the Atlantic Coast to Brazil and another to Argentina, a line from the South Atlantic or Gulf Coast to South America, and similar communication to the Pacific Ocean.

The proposed payment for these advantages is about half the amount England and France pay for their steamship service and less than is paid by Japan. Last year the United States made a profit of \$3,600,000 on its carriage of foreign mails, and he hoped to have at least that amount devoted to building up the foreign mail service.

"In view of these facts," he said, "need we wonder that in spite of the Monroe Doctrine we are being shouldered out of the South American republics by other people whose governments understand the relation between ships and trade? Great Britain, France, Germany, Italy and Spain have long had their own steamship lines to South American markets. Japan had no sooner closed her victorious war with Russia than she subsidized into existence a steamship line across the Pacific to Peru and Chile, and our Consuls note that this is about to be extended to Argentine and Brazil. What a mockery of fate it is that the people of a hermit nation, which the United States 60 years ago first opened and introduced to the modern world, should now be able to boast better, more regular and more direct shipping facilities than America. The most smarting and humiliating episode of the entire year is the revelation which the great battleship fleet is bringing out around South America."

What Shall We Have For Dessert?

Try JELL-O, the dainty, appetizing economical dessert. Can be prepared instantly—simply add boiling water and serve when cool. Flavored just right; sweetened just right; perfect in every way. A 10c package makes enough dessert for a large family. All grocers sell it. Don't accept substitutes. JELL-O complies with all Pure Food Laws. Seven flavors:—Lemon, Orange, Raspberry, Strawberry, Chocolate, Cherry, Peach.

steamships available as auxiliaries of war would be built by the influence of the bill if passed, he said. The proposed legislation would also, he said, help to break up the shipping trust in South America.

MAGIC MIRRORS.

Peculiar Effects in Some of the Polished Bronze Reflectors.

Now and then mirrors of a curious kind are seen in Europe. They are called "magic mirrors" and are of Japanese origin, made not of glass silvered, but of cast bronze, polished on the face and bearing on the back raised patterns, inscriptions, symbolical designs, crests or pictures. When exposed to a bright beam of light from the sun or from an electric lamp they reflect in the light from their polished face the image of the pattern on their backs.

This is a purely optical property and has of course nothing in common with the fortune telling magic crystals of the astrologer or the alleged magic mirrors of necromancy, yet it long puzzled the scientific optician and even now is little known or believed. The researches of various scientific men have established the fact that the phenomenon is due to very minute differences of curvature in the polished face, differences so minute that they do not affect the ordinary use of the mirror as a looking glass and that can be detected only by delicate optical tests.

The only remaining mystery has been as to how these delicate differences of curvature were produced in exact correspondence to the pattern on the back. The makers themselves are often in ignorance of the magic property and do not know which of their mirrors possess it and which do not. The mirrors are cast in molds and afterward polished by hand, and it is held by scientific men that the difference of curvature is caused by the metal's yielding unequally under that pressure of the tools used in scraping and polishing, the thin parts naturally bending more than the thick. This accounts for the mirrors' becoming magic.—Chicago News.

STRONGEST VAULT BUILT.

The largest and strongest vault in the world is described in the March number of Popular Mechanics. It is built of armor plate in two stories, with a connecting passage between them carrying an elevator and stairway. The lower story is 9 and one-half feet high, 106 feet long and 30 feet wide. The whole structure weighs 1,200 tons. The steel plates are 4-in. armor plate, of the same kind furnished the government for war vessels. Except for the doors the walls are free from openings of any kind. The plates are dovetailed together in such a way as to make separation impossible except from the inside, and the entire vault is incased in a 16-in. coating of concrete.

There are no holes through the doors for the locking mechanism, and the automatic time locks are the sole means of opening the vaults after each of the three doors there are four locks. All of these would have to fail simultaneously to make an accidental permanent locking possible.

Simple Remedy For La Grippe

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. For sale by T. F. Laurin.

NEW ASH EXPELLER.

A new way of disposing of the large amount of ashes and clinkers which materializes every day in the stove-hole of a ship has been found in a machine, which expels the ashes and clinkers straight down through the bottom of the ship instead of from the side, says Popular Mechanics for March.

The underline expeller, which is driven by air motor, eliminates all these disadvantages. The machine is absolutely silent in its workings, all its parts are at all times accessible for examination and the ashes are projected with sufficient velocity to carry them deep enough to clear all suction. The article is illustrated.

A cough cure than can be given to children without chance of harm is Kemp's Balsam, the best cough cure. It does not contain poisons or harmful drugs. Druggists sell it.

HOME FOR IRISH SOCIETIES.

NEW YORK, Feb. 24.—Work is to be begun soon on a building which will serve as the home and headquarters for New York's various Irish societies. After ten years work the trustees of the Irish Palace building Association have just announced that they are ready to begin work on the structure for the purpose to be located at 115th Street and Lexington Avenue, the site for which was purchased in 1900 for \$65,000. Besides having all the features of an armory the building will have a library well stocked with the best Irish books and meeting rooms for Irish societies.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them; and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
